

The background of the entire image is a dark, monochromatic marbled pattern. It features intricate, swirling veins of light gray and white against a dark charcoal or black base, creating a sophisticated and organic texture.

Effetto

Stone Collection

Effetto

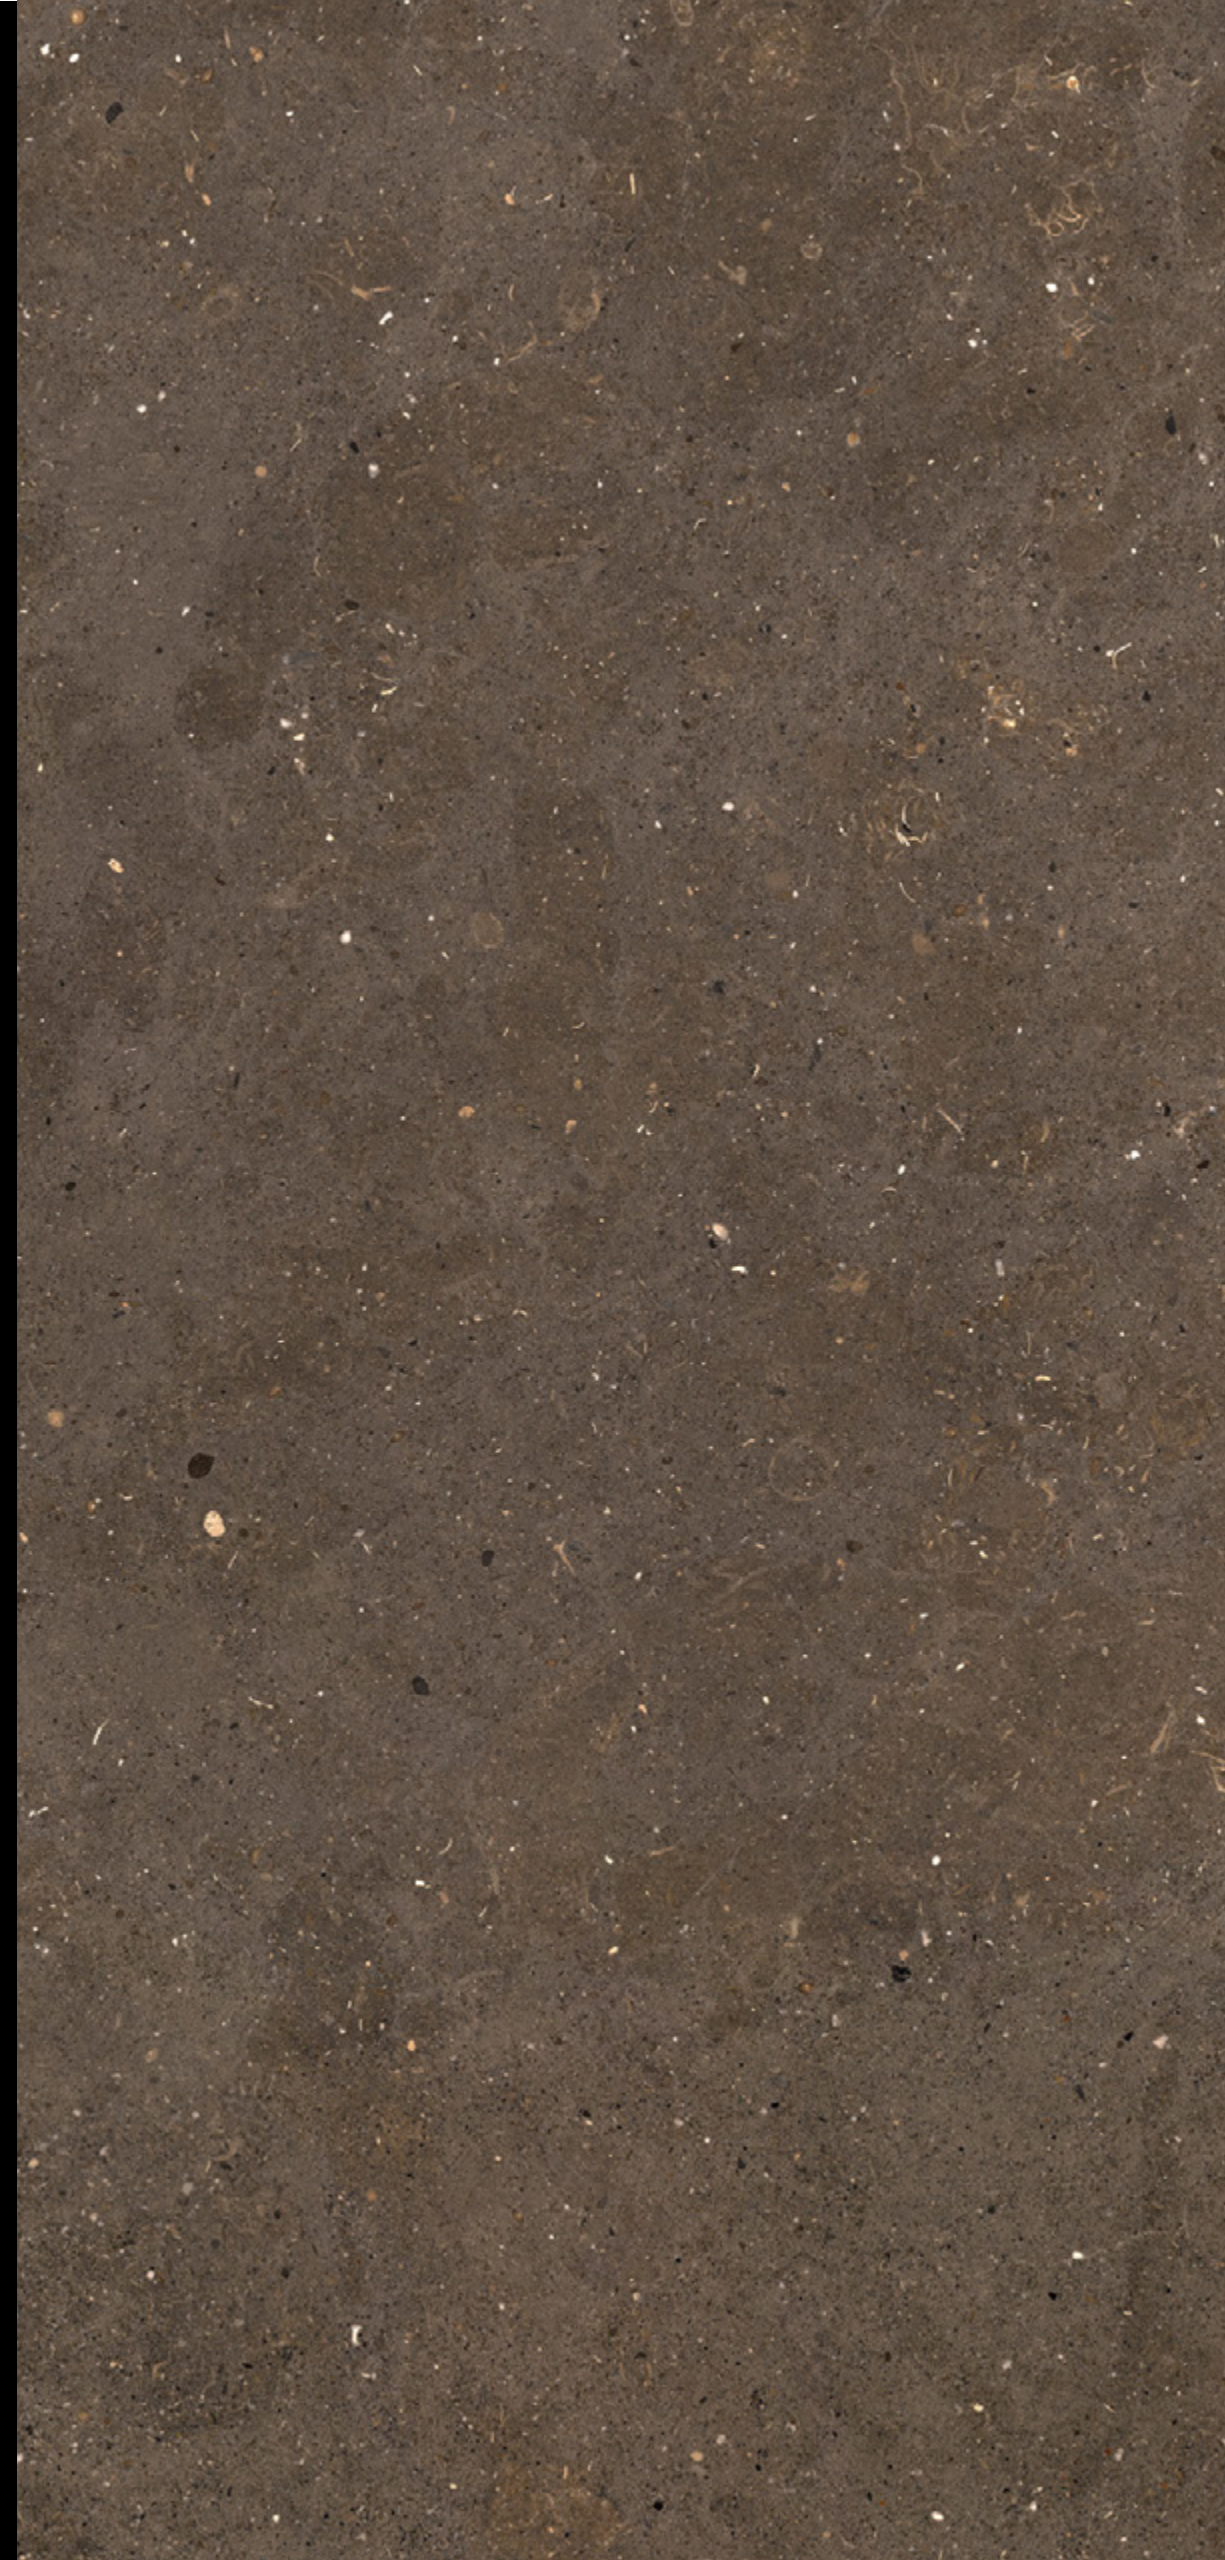

Stone Collection

Offering a colour palette of six complementary shades, Effetto is a highly functional addition to our Stone Collection. As well as working beautifully when used together, each colourway displays the delicate inclusions typical of natural stone and is available in four sizes including a 20 mm format for external application. Opening up even more possibilities are the Natural, Honed, Grip and Structured finishes, each conveying its own subtle nuances, yet all delivering the exceptional durability and superior technical performance of porcelain. Finally, Effetto can be specified for stand-alone objects and monolithic furniture, enabling designers to create beautifully cohesive and exciting schemes.

-	-	-	Structured - R10

Shade Tone Variance

Shade, texture and tone can vary from piece to piece within a single tile production run. V1 shade tone variation has little or no change from piece to piece where a V4 might have a substantial variety of shade, texture and tone variation.

Variance Rating	Description
V1	Uniform Appearance
V2	Slight Variation
V3	Moderate Variation
V4	Substantial Variation

COLOUR	VARIANCE
Bone	V2
Brown	V2
Dark Grey	V2
Dove	V2
Nut	V2
Obsidian	V2

Ramp Test Values (DIN 51130)

DIN Standard Ramp Testing (DIN 51130) is an alternative to Pendulum Testing and generally categorised as an ‘off-site’ activity because of the size and complexity of the equipment required to carry out the test. The Slip Resistance Values (RSV) are factory gate values (based on supplied tiles) and categorised using the Ramp Test (DIN 51130) method which is commonly used by European factories. In this method, a lubricated inclined platform is adjusted to a gradually increasing gradient, and the angle is measured at which a person walking on it slips.

R Rating Value	Friction
R9	Minimal
R10	Normal
R11	Good
R12	Good
R13	Very High

COLOUR	FINISH/STYLE	R Rating Value	Friction
Bone	Grip Structured	R11	Good
Bone	Natural	R10	Normal
Brown	Natural	R10	Normal
Brown	Structured	R11	Good
Dark Grey	Natural	R10	Normal
Dove	Grip Structured	R11	Good
Dove	Natural	R10	Normal
Nut	Grip	R11	Good
Nut	Natural	R10	Normal
Nut	Structured	R11	Good
Obsidian	Grip Structured	R11	Good
Obsidian	Natural	R10	Normal
