Futura - Nickel (exterior 600 x 600 mm Grip)

Futura

Concrete Collection

Through a delicate combination of cement and clay, Futura presents a dusty concrete-effect surface through a calming palette of four earthy shades. These complimentary colours create the perfect backdrop when juxtaposed with accent colour and integrate beautifully when used together within a single development. Five practical sizes, including a 9.5 mm grip finish, mean that Futura helps with continuity when laid through adjoining living areas and is ideal for projects that span both internal and external spaces. Unique to Futura, and available for the first time as part of a 'concrete' range, is the charming assortment of artistic and geometric decorative tiles. 'Shape' and 'Style' in particular, provide a creative solution for differentiating living areas, while 'Craft' and 'Brick' are ideal for a bespoke, hand-finished surface.
