FINE DINING TABLES & TABLE TOPS

A collection of table tops and bespoke dining tables, crafted from the finest Italian porcelain. Designed to bring sophistication to any space, these tables and bespoke tops offer an unparalleled choice of colours and styles, providing you and your clients the perfect match for their dining experience.

Each design combines beauty with unmatched durability, making it an enduring centerpiece for gatherings and memorable moments. Manufactured to withstand the demands of hospitality settings, resisting scratches, stains, and heat—our tops retain their pristine appearance over time. Unlike other surfaces, porcelain’s non-porous and easy-to-clean finish ensures lasting hygiene and protection, making it an ideal choice for dining tables.

With over 150 colours to choose from, designers can create bespoke tables and table tops using their favourite Italian porcelain slabs. **Now Imagine** provides the technical and manufacturing support, enabling designers to incorporate large-format Italian porcelain surfaces into their interior design projects in innovative ways. Through this initiative, we aim to inspire creativity, encouraging designers to see each porcelain slab as a versatile and artistic surface.

FORMAL DINING

Formal dining is an experience that can transform a meal into an occasion, where every element, from the setting to the ambiance, plays its role. Our porcelain table tops are crafted to bring elegance to every dining occasion. With their refined look and luxurious Italian porcelain surfaces, they serve as the perfect focal point for any table setting.

Beyond their stunning appearance, porcelain table tops offer unmatched resilience against scratches, stains, and heat, ensuring they remain flawless through every course. Available in an extensive range of colours and styles, our porcelain tops not only complement the ambiance but also provide peace of mind, allowing hosts to create truly memorable moments.

CASUAL DINING

Casual dining embraces a relaxed, welcoming atmosphere where comfort and connection take center stage. It's about creating spaces that feel effortless and inviting, perfect for everyday family meals and laid-back gatherings with friends.

Our porcelain table tops are designed to elevate casual dining experiences with a blend of style and practicality. Their durable surfaces are resistant to scratches, stains, and heat, making them ideal for everyday use and spontaneous gatherings alike. Available in a wide array of colours and textures, these table tops effortlessly complement any casual dining space, bringing a touch of elegance without compromising on functionality. Easy to clean and maintain, our porcelain table tops allow your clients to focus on enjoying meals and moments, knowing that their dining surface will continue to look beautiful, meal after meal.

SASSI DI MATERA - 12 mm | HEXAGON BASE (FIG. 14.1)

OUTDOOR DINING

Outdoor dining celebrates the joy of gathering in open-air settings, where fresh air and natural surroundings enhance every meal. It's an experience that invites relaxation and connection, blending the comforts of dining with the beauty of the outdoors. With thoughtfully chosen furnishings and settings, outdoor dining can be both stylish and comfortable, transforming any patio, garden, or terrace into an inviting extension of the home.

Our porcelain table tops are the ideal choice for outdoor dining, combining durability with style to suit any open-air setting. Built to withstand the elements, these surfaces resist fading, mould, scratching, and staining, ensuring they look pristine through every season. Unlike ceramic tiles, they don't soak up water, so there's no risk of freezing, expanding, and cracking when it gets chilly. With a variety of colours and finishes, our porcelain tops effortlessly elevate outdoor dining spaces, blending seamlessly with natural surroundings or adding a modern touch to patio or terrace spaces. Their low-maintenance, non-porous surface makes cleanup a breeze, so your clients can enjoy the outdoors without worry.

IRISH GREEN - 12 mm (FIG.18.1)

HOTEL TABLES

In hospitality settings, style and durability are essential to creating spaces that are both inviting and resilient. From upscale hotels to bustling restaurants, the furniture must not only convey a sense of elegance and ambiance but also withstand constant use. Durable, high-quality porcelain surfaces ensure that each space maintains its look and functionality over time, enhancing the guest experience while reducing the need for frequent replacements.

This balance of aesthetic appeal and robust construction is key to leaving a lasting impression on guests while meeting the rigorous demands of hospitality environments. Our porcelain tops, available in durable 12 mm and 20 mm solid options, as well as stylish 32 mm metal edge designs, are perfect for hospitality environments, combining elegance and resilience to withstand the demands of these challenging conditions.

GOLDEN AMBRA - 32 mm BRUSHED GOLD METAL EDGE | CIRCULAR BASE (FIG.20.1)

LAGUNA BLANCA - 12 mm (FIG.21.2)

RESTAURANT TABLES

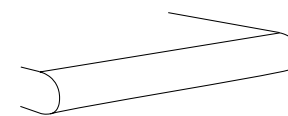

Our porcelain table tops are the perfect choice for restaurants seeking to elevate their dining experience with a blend of style, durability, and practicality. Crafted from high-quality Italian porcelain, these table tops are designed to withstand the rigors of busy dining environments while maintaining their elegance and charm.

Table tops are supported by a 20 mm moisture-resistant black MDF backing, ensuring stability and compatibility with various base options. Available in a variety of colours, finishes, and edge profiles, our porcelain table tops can seamlessly integrate with any restaurant décor, from contemporary to classic. Their non-porous surface makes them easy to clean and resistant to stains, ensuring that they remain beautiful and functional over time. If the requirement is outfitting a chic bistro, a bustling café, or a fine dining establishment, porcelain table tops offer the perfect combination of aesthetic appeal and lasting performance, enhancing the overall ambiance and dining experience.

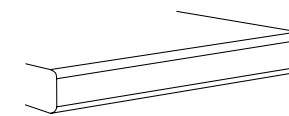

SOLID EDGE PROFILES

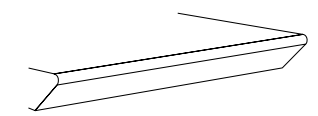

Available in both 12 mm and 20 mm thicknesses, all solid porcelain table tops are offered in a choice of three exquisite edge profiles - bullnose, double pencil or shark nose. The bullnose edge boasts a classic, rounded finish. The double pencil features a slightly rounded edge that adds a touch of softness to the surface. The shark nose edge offers a modern, angular profile that enhances the clean lines of the design. All profiles are practical for daily use and suitable for hospitality settings. Available in 12 mm and 20 mm thicknesses, these edge profiles allow for further customisation for clients.

TABLE BASE OPTIONS

These porcelain tables are as versatile in their foundations as they are in their surfaces. Clients have the option to supply their own base or select from our expertly crafted bases, designed to complement the elegance and durability of our porcelain tops.

We offer a range of base designs:

- Circular pedestals for a sleek and modern look.
- Semicircular pedestals for a touch of asymmetrical sophistication.
- Hexagonal bases that add a geometric edge.
- Rectangular bases for a classic and sturdy foundation.

Each base is available in two luxurious finishes:

- Cladded in the premium Italian porcelain.
- Wrapped in high-quality real wood decor for a warm, natural appeal.

No matter the thickness of your selected table top, bases are crafted to maintain a standard dining table height of 75 cm. Custom heights can also be provided.

CIRCULAR BASE

The circular pedestal base is a stunning combination of form and function, expertly clad with a meticulously crafted porcelain strip decor. Its design features a sleek shadow gap at the bottom, creating a floating visual effect. The black MDF top plate ensures seamless compatibility with a variety of table tops, while its availability in diameters ranging from 300 mm to 500 mm makes it versatile for different table sizes. Perfectly balanced, this pedestal is a refined choice for modern dining environments and is particularly suited to our circular and stadium style table tops.

SEMICIRCULAR BASE

The semicircular pedestal base provides an elegant foundation for our circular and stadium designed table tops, and features an expertly crafted porcelain strip decor. Its shape provides extra leg room and is enhanced further by a subtle shadow gap at the bottom, creating a contemporary floating effect. An MDF top plate ensures compatibility with a wide range of table tops, making it a versatile choice for various designs. Available in diameters from 300 mm to 500 mm.

HEXAGON BASE

The hexagonal pedestal base combines geometry with customisable elegance. Expertly cladded in Italian porcelain, clients have the option to match the pedestal's surface with the porcelain table top for a cohesive, harmonious look or select a contrasting colour to create a bold design statement. A shadow gap at the base enhances its modern floating effect, while the black MDF top plate ensures seamless compatibility with a wide variety of table tops. Available in diameters from 300 mm to 500 mm Hexagon looks great with both oval and rectangular tops.

RECTANGULAR BASE JET BLACK (FIG.46.1)

RECTANGULAR BASE

The rectangular base offers a sturdy foundation, and is expertly clad in stunning porcelain surfaces. Clients can choose to match the base with the same porcelain finish as the table top or opt for a contrasting style to make a bold statement. A subtle shadow gap at the bottom enhances its modern aesthetic, while the black MDF top plate ensures compatibility with a wide range of table tops. Available in sizes from 150 mm to 750 mm the rectangular base suits our straight edge table tops.

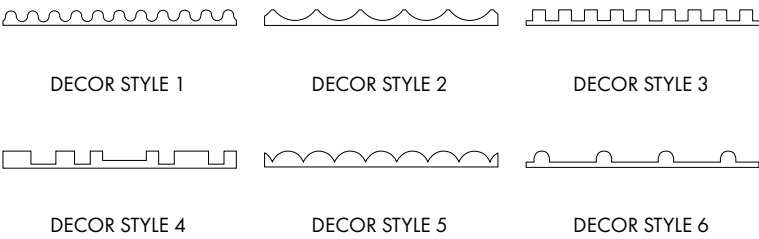

CIRCULAR WOOD BASE WITH DECOR STYLE 4 IN OAK (FIG.50.1)

WOOD BASE

Each wooden base is precision crafted and wrapped in one of six stunning “3D Decor Styles”. Each style features a real wood surface enhanced by advanced CNC machining for a refined, three-dimensional texture. With a choice of six beautiful wood colours, these bases offer a warm and tactile contrast to porcelain table tops, allowing clients to tailor each table to their space.

SILK GREY – RAL 7044

SEMICIRCULAR WOOD BASE

The circular and semicircular wood base options are available in diameters from 300 mm to 500 mm. The base is wrapped in one of six exquisite “3D Decor Styles.” Each style showcases a real wood surface, skillfully enhanced with advanced CNC machining to create a refined, three-dimensional texture. These bases offer a natural complement or striking contrast to porcelain table tops, making them a versatile choice for modern and classic interiors alike.

Fundamental to unlocking the full potential of large format porcelain slabs is our support solution - Now Imagine.

Now Imagine provides our clients with full technical and manufacturing support, enabling them to incorporate large format Italian porcelain surfaces into their designs in new and innovative ways. Through our Now Imagine campaign we hope to inspire designers to think of each porcelain slab as a creative surface.

Imagine the most luxurious bathroom vanities and bespoke home furniture. Now imagine them made from your favourite Italian Porcelain slab. Our comprehensive UK based solution enables this, allowing interior designers and architects to unleash their creativity and bring their visions to life.

Now Imagine also provides practical solutions to design challenges. By utilising our cut-to-size services, the entire cutting process takes place off-site and is risk-free to you. This eliminates the need for third-party fabricators and the transport of slabs between suppliers. Use cut-to-size for architectural cladding and curved walls, custom flooring, inlays and staircases, and for construction sites where space is limited and manoeuvring full-sized slabs is not practical.

This level of support allows designers to have a relaxed approach to specifying large formats and gives installers the confidence to handle slabs onsite and complete projects successfully. When you next visit one of our showrooms, ask how Now Imagine can be used to elevate your project.

MEETING YOUR SUSTAINABILITY GOALS

All our porcelain surfaces are manufactured using sustainable processes that minimise the impact on the environment, conserving both energy & natural resources.

Surfaces are produced without the use of any harmful or radioactive materials, are free from pollutant emissions and will not effect air quality. All packing material is produced with recycled material. Wherever possible, heat generated as a by-product of the surface manufacturing process is used for electricity generation, making their factories energy self sufficient. All waste material that is associated with the supply of the tile surface is fully recyclable.

All surfaces are manufactured using materials from renewable sources. They have a reduced environmental impact throughout their lifespan and no toxic, harmful or polluting substances are used for their composition and production. The materials do not release toxic, harmful or polluting substances. All products meet the highest standards of quality and environmental regulations and conform to the following certifications:

BREEAM®

MAINTENANCE

Porcelain stoneware surfaces are virtually maintenance free, extremely hard wearing and do not require sealing or periodic re-sealing. A comprehensive cleaning routine will help to keep your surfaces in tip-top condition and ensure their continued beauty for years to come. For everyday cleaning we recommend the use of warm water and a soft microfibre cloth. Dry with a second microfibre cloth and if your surface is polished, buff to restore the brilliant finish.

Before using any new cleaning product or method, make sure to test it on a small, inconspicuous area of the surface first. Avoid using excessively acidic or basic products, and do not use abrasive sponges. We do not recommend the use of polishing machines or waxes.

Although porcelain is stain resistant, care must be taken to immediately clean any stain, especially on polished tops. The best way to ensure stubborn marks do not occur is to wash away stains such as red wine, food and drinks, using warm water and a soft microfibre cloth. For stubborn stains use a non-abrasive cleaning product, sugar soap or normal house cleaning products.

Do not use cleaners that have strong alkaline pH levels and thoroughly rinse the surface with clean water to remove residue. It is also important to note that hydrofluoric acid (HF) and its derivatives can irreparably damage porcelain stoneware.

For all cleaning operations, it is recommended to carry out a preventive test on a small part of material and leave the product on only as necessary.

For the regular maintenance of kitchen and eating areas, promoting shine and hygienic cleanliness and to remove lime scale, grease deposits and soap use a specialist cleaner. We recommend specialist ceramic cleaning products from Fila Solutions and Lithofin.

MARBLE STATUARIO - 20 mm | SHARK NOSE EDGE PROFILE (FIG.60.1)

TECHNICAL SPECIFICATION

View technical information about the specifications of porcelain stoneware.

THICKNESS	6mm	12 mm	20 mm
MAXIMUM SLAB DIMENSIONS	320 x 160 cm	320 x 160 cm	320 x 160 cm
WEIGHT	14 kg per m²	28 kg per m²	47 kg per m²

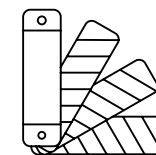

This table serves as a reference for the technical data listed and contains data provided by the International Organisation for Standardisation (ISO).

TEST	TEST METHOD	RESULT
Water absorption	ISO 10545-3	≤ 0.1%
Deep abrasion resistance	ISO 10545-7	2-5
Stain resistance	ISO 10545-14	Resistant
Chemical resistance	ISO 10545-13	Conforms
Resistance to thermal shocks	ISO 10545-9	Resistant
Frost resistance	ISO 10545-12	Conforms

The following table is the Mohs scale of hardness ranging from 1 to 10 used to determine a material’s scratch resistance. The Mohs scale uses ten fairly common minerals of known hardness and gives each of them a relative value of 1-10. Each mineral in the scale will scratch those with lesser values and will not scratch those with higher values.

Porcelain stoneware is considered to have a Mohs rating of 8.

MOHS RATING	MINERAL	TABLE TOP SURFACE
1	Talc	Vinyl
2	Gypsum	Wood tops
3	Calcite	Marble and Laminate
4	Fluorite	Marble and Corian
5	Apatite	Granite tops
6	Feldspar	Granite tops
7	Quartz	Quartz or Quartzite tops
8	Topaz	Porcelain stoneware
9	Corundum	No top is this hard
10	Diamond	No top is this hard

COLOURS FOR METAL EDGE TOPS

The following porcelain stoneware colours are 6 mm in thickness and represent the latest generation of surface materials to combine lightweight design with increased technical performance. These practical surfaces can be used for furniture inlays, product inserts and metal edge table tops. From classic marbles to precious stone, there is a wide range of colours and styles to suit your requirement. Whichever colour you choose, all offer the practical benefits of porcelain and provide a virtually maintenance-free, non-porous surface that is highly resistant to stains and scratches. This allows you to enjoy the beauty of marble, the texture of stone or the heft of concrete, without any of the production, maintenance or environmental issues.

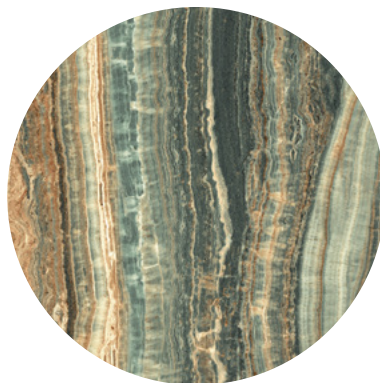

Some colours are available with a choice of surface finish (Natural, Polished or Honed), providing you with fine control over the visual impact and tactile feel of the table top.

With a wide selection of marble, stone and concrete designs, the potential to push creative boundaries has never been more accessible. Colour samples are available for all our surfaces.
