

The background of the entire image is a dense, organic marbled pattern. It features a complex interplay of dark, swirling veins in shades of black and dark grey, set against a lighter, off-white or light grey base. The pattern resembles natural stone or marble, with the veins flowing in various directions, creating a sense of movement and depth. The overall effect is sophisticated and textured.

Surface and texture

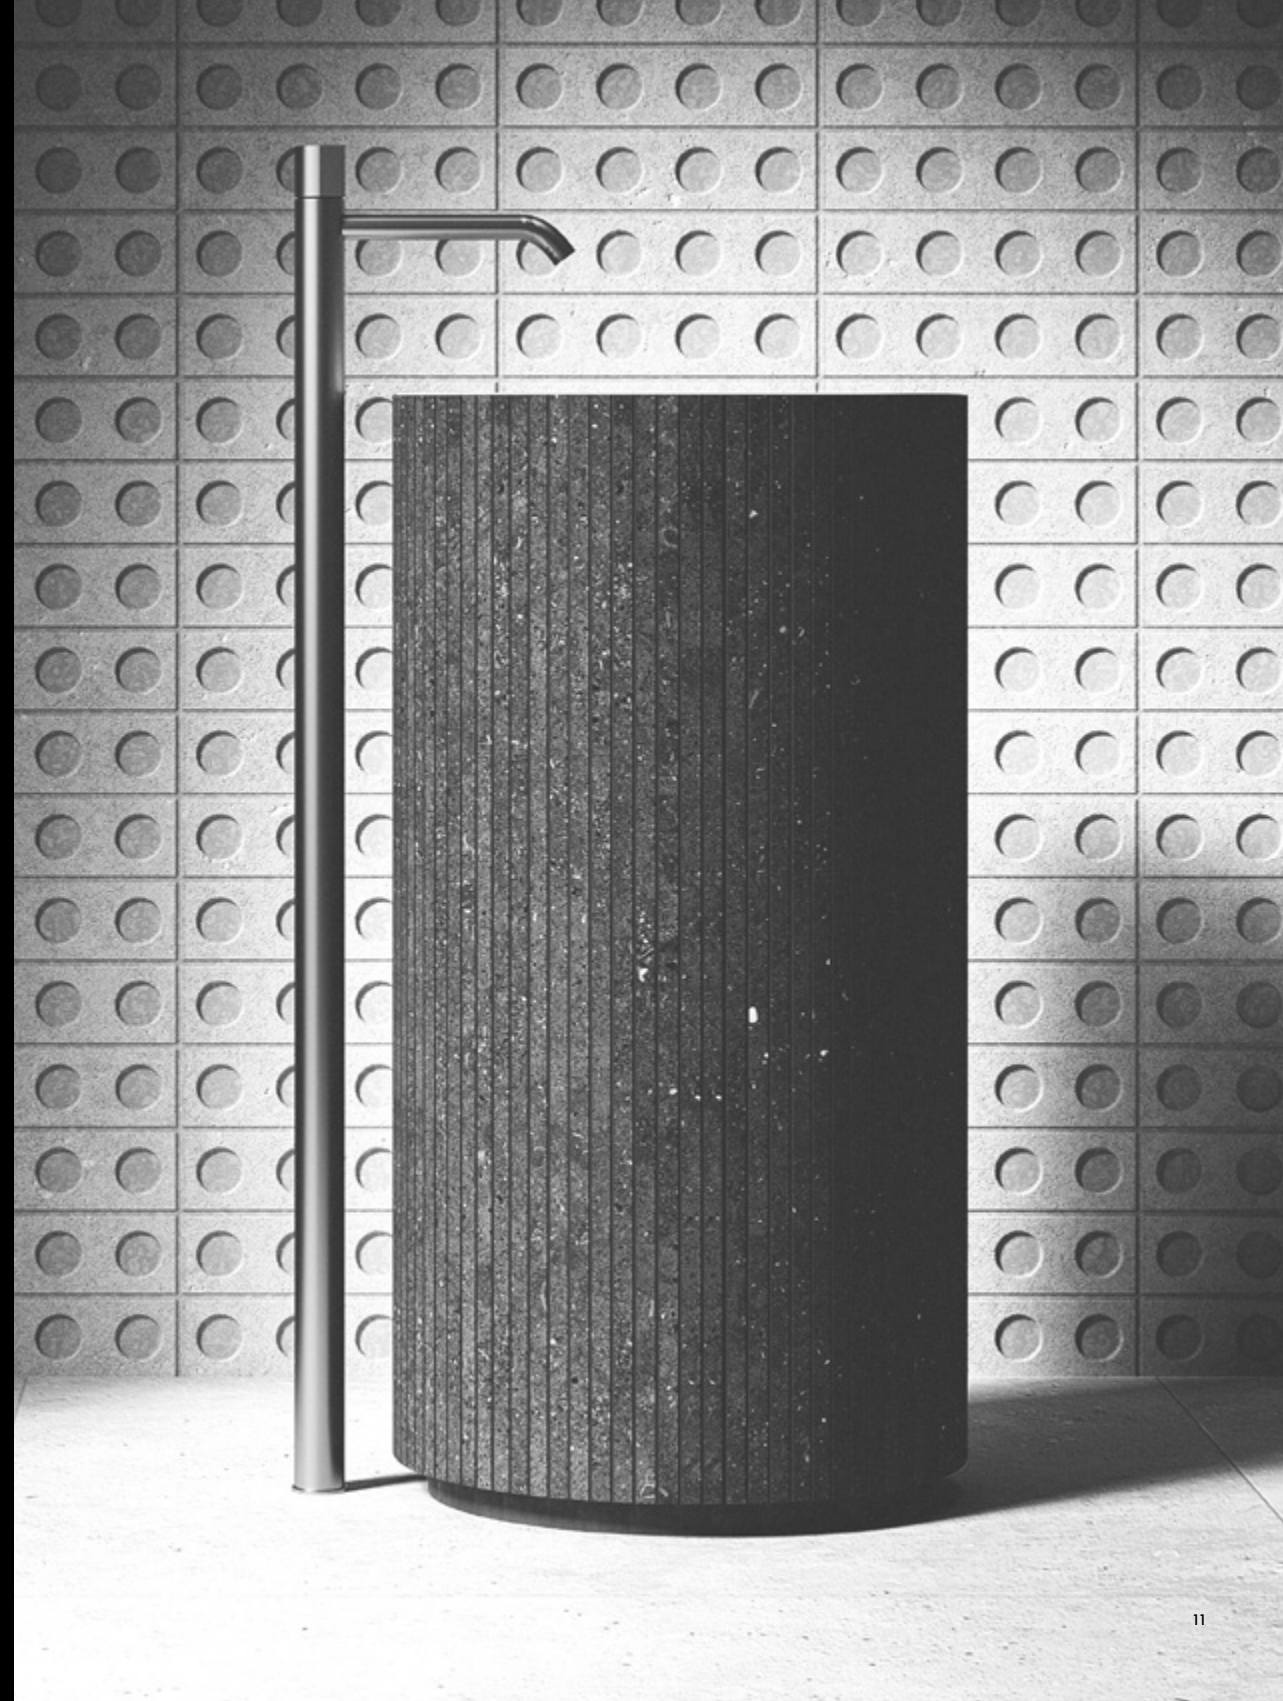

Throughout history the principle building material has been stone. As construction techniques evolved, the requirement for stone to provide structural strength diminished, and a new case for its use was required.

The desire to create timeless forms and meaningful spaces remained, and a new material that could deliver light and shade, advance and recess, and surface and texture started to emerge. Through constant innovation, the Porcelain Tiles Stone Collection celebrates the dislocation of form and function and keeps pace with the increasing demands of our architectural clients.

Bespoke design

Whether it be an architectural structure or an original design, each and every bespoke design project is created to your precise specifications at our purpose-built fabrication studio. Here, we celebrate your love of detail and transform your ideas into reality.

Our products have been specified in over a thousand projects worldwide, including some of London's most prestigious homes, and we are proud of the reputation we have earned within the architectural design sector. Providing our clients with a knowledgeable service and a superior product ensures that each and every project, whether it be a new development, contemporary office space or luxury hotel, has the opportunity to realise its potential to enhance the lifestyle of its occupants.

Finishing touches

To ensure that each project is as unique as its creator, many of the surfaces within our Stone Collection are offered in a choice of finishes.

From the contemporary softness of Honed finish, the authenticity of Natural, the spectacular shine of Polished or the practicality of Grip, each one displays a personality all of its own and provides you with fine control over the visual impact of your unique design. Perfection in every detail.

Collaboration

Working alongside architects, interior designers, commercial and residential developers, we are driven by a pride in our collection and an appetite for delivering effective design.

From architectural structures to custom-made furniture, outside living spaces to luxurious interiors, Italian porcelain is now at the heart of each concept, shaping the space around us and bringing ideas to life.

Distinctly Italian

With an unmistakable Italian style, each and every tile is the embodiment of innovation and technical development and has the power to influence lifestyle and excite emotion. And while meeting the demanding structural, aesthetic and environmental needs of our clients and providing the style to satisfy modern and traditional tastes, porcelain has become the new luxury surface covering with the strength to shape design trends.

Captivating experience

Providing space and time to experience the finest materials, our showrooms have been conceived to inspire and inform. Light and scale are the defining features, with immersive large format displays, carefully considered lighting and touchscreen technology. Our clients experience a relaxed and unhurried environment, perfect for finding those hidden details that make Italian porcelain so captivating.

Environmental sustainability

Our stone surfaces are carefully selected and constantly updated to bring you the most beautiful designs, featuring the most up-to-date technology. This allows our clients to maximise the aesthetic and functional experience, while minimising the environmental impact.

We aim to achieve the highest level of quality and performance without harming the environment and all our Italian porcelain tiles are proudly LEED® and Ecolabel certified. Many of our surfaces are also anti-pollution and bactericidal certified by ISO.

Magnifica

With its layered tones and delicate hues, Magnifica is a stylish addition to our Stone Collection. Comprising of four complementary cold tones, Magnifica can be used within a monochrome theme or softened with vivid accents and organic accessories.

Natural and Polished surfaces can be combined with stunning effect for contemporary living spaces and with an R10 slip rating, Magnifica can be specified for residential or commercial schemes where the surface area spans inside and out. Available in three large formats, Magnifica is perfect for floor and wall installation, external cladding, as well as a host of furniture and surface applications.

Projetto

Designed for urban living, Progetto is a stone-effect collection of six dusty shades, Fumo, Lume, Magma, Ossido, Ruggine and Zinco. Displaying a lightly textured surface with authentic variation, Progetto provides a solution for designers wanting exposed structural elements.

Projetto is available in seven practical sizes including large format 1 m x 3 m panels, which provide the flexibility and scalability for both small, medium and larger spaces. Progetto can also be used for the cladding of walls and other vertical or horizontal surfaces with stunning results. From countertops and kitchen islands, to fireplaces and seating, Progetto provides a seamless flow without boundaries and a stylish backdrop to daily life.

Finally a Grip finish, with its inherent frost-resistance and high anti-slip properties, can be specified both inside and out, making Progetto the ideal solution for modern exteriors, terraces, spas and pool areas.

Effetto

Offering a colour palette of six complementary shades, Effetto is a highly functional addition to our Stone Collection. As well as working beautifully when used together, each colourway displays the delicate inclusions typical of natural stone and is available in four sizes including a 20 mm format for external application.

Opening up even more possibilities are the Natural, Honed, Grip and Structured finishes, each conveying its own subtle nuances, yet all delivering the exceptional durability and superior technical performance of porcelain. Finally, Effetto can be specified for stand-alone objects and monolithic furniture, enabling designers to create beautifully cohesive and exciting schemes.

Anima

By combining the intricacies of hewn stone with the subtle veining found in marble, Anima provides a unique option within our Stone Collection. With its high variation of shade and tone within each slab, Anima has the character to add texture to minimalist projects and interest to larger open spaces.

Anima offers unrivalled practicality with eight sizes and four finishes, including an R11 rated Grip option. Delivering natural, long-lasting beauty, Anima provides a wonderfully elegant way to separate space, making it particularly suited to professional specifiers as well as for residential schemes.

Basalt Stone

Celebrating the strength of volcanic rock, Basalt Stone features the exquisite detail and vesicular texture evident in basaltic lava. Carefully reproduced textures and veining mix to create layers of movement, resulting in a rich variation of hues and tones.

Available in three generous formats, including extra large 1000 x 3000 mm slabs, Basalt Stone benefits from the latest compaction technology and is suitable for wall cladding and any object-based fabrication. This versatility brings with it new surfacing opportunities such as hidden doors, integrated kitchen units and furnishing accessories.

Five contemporary colours bring depth and richness to both walls and floors and ensure that Basalt Stone continues to be a very relevant and popular surface covering.

Lime Sense

Lime Sense is a naturally warm, stone effect porcelain tile that celebrates the sedimentary qualities of Limestone. With its delicate limed surface, a contemporary backdrop can be created, ideal for residential and commercial spaces.

A large format tile, Lime Sense is available in three sizes up to 1000 mm x 3000 mm and three muted tones and is suitable for the cladding of walls and other vertical or horizontal surfaces such as worktops. Lime Sense also has a Structured finish with an anti-slip rating of R10, which when combined with the durability of porcelain, ensure its suitability for high traffic areas both inside and out.
