SURFACE

SURFACE

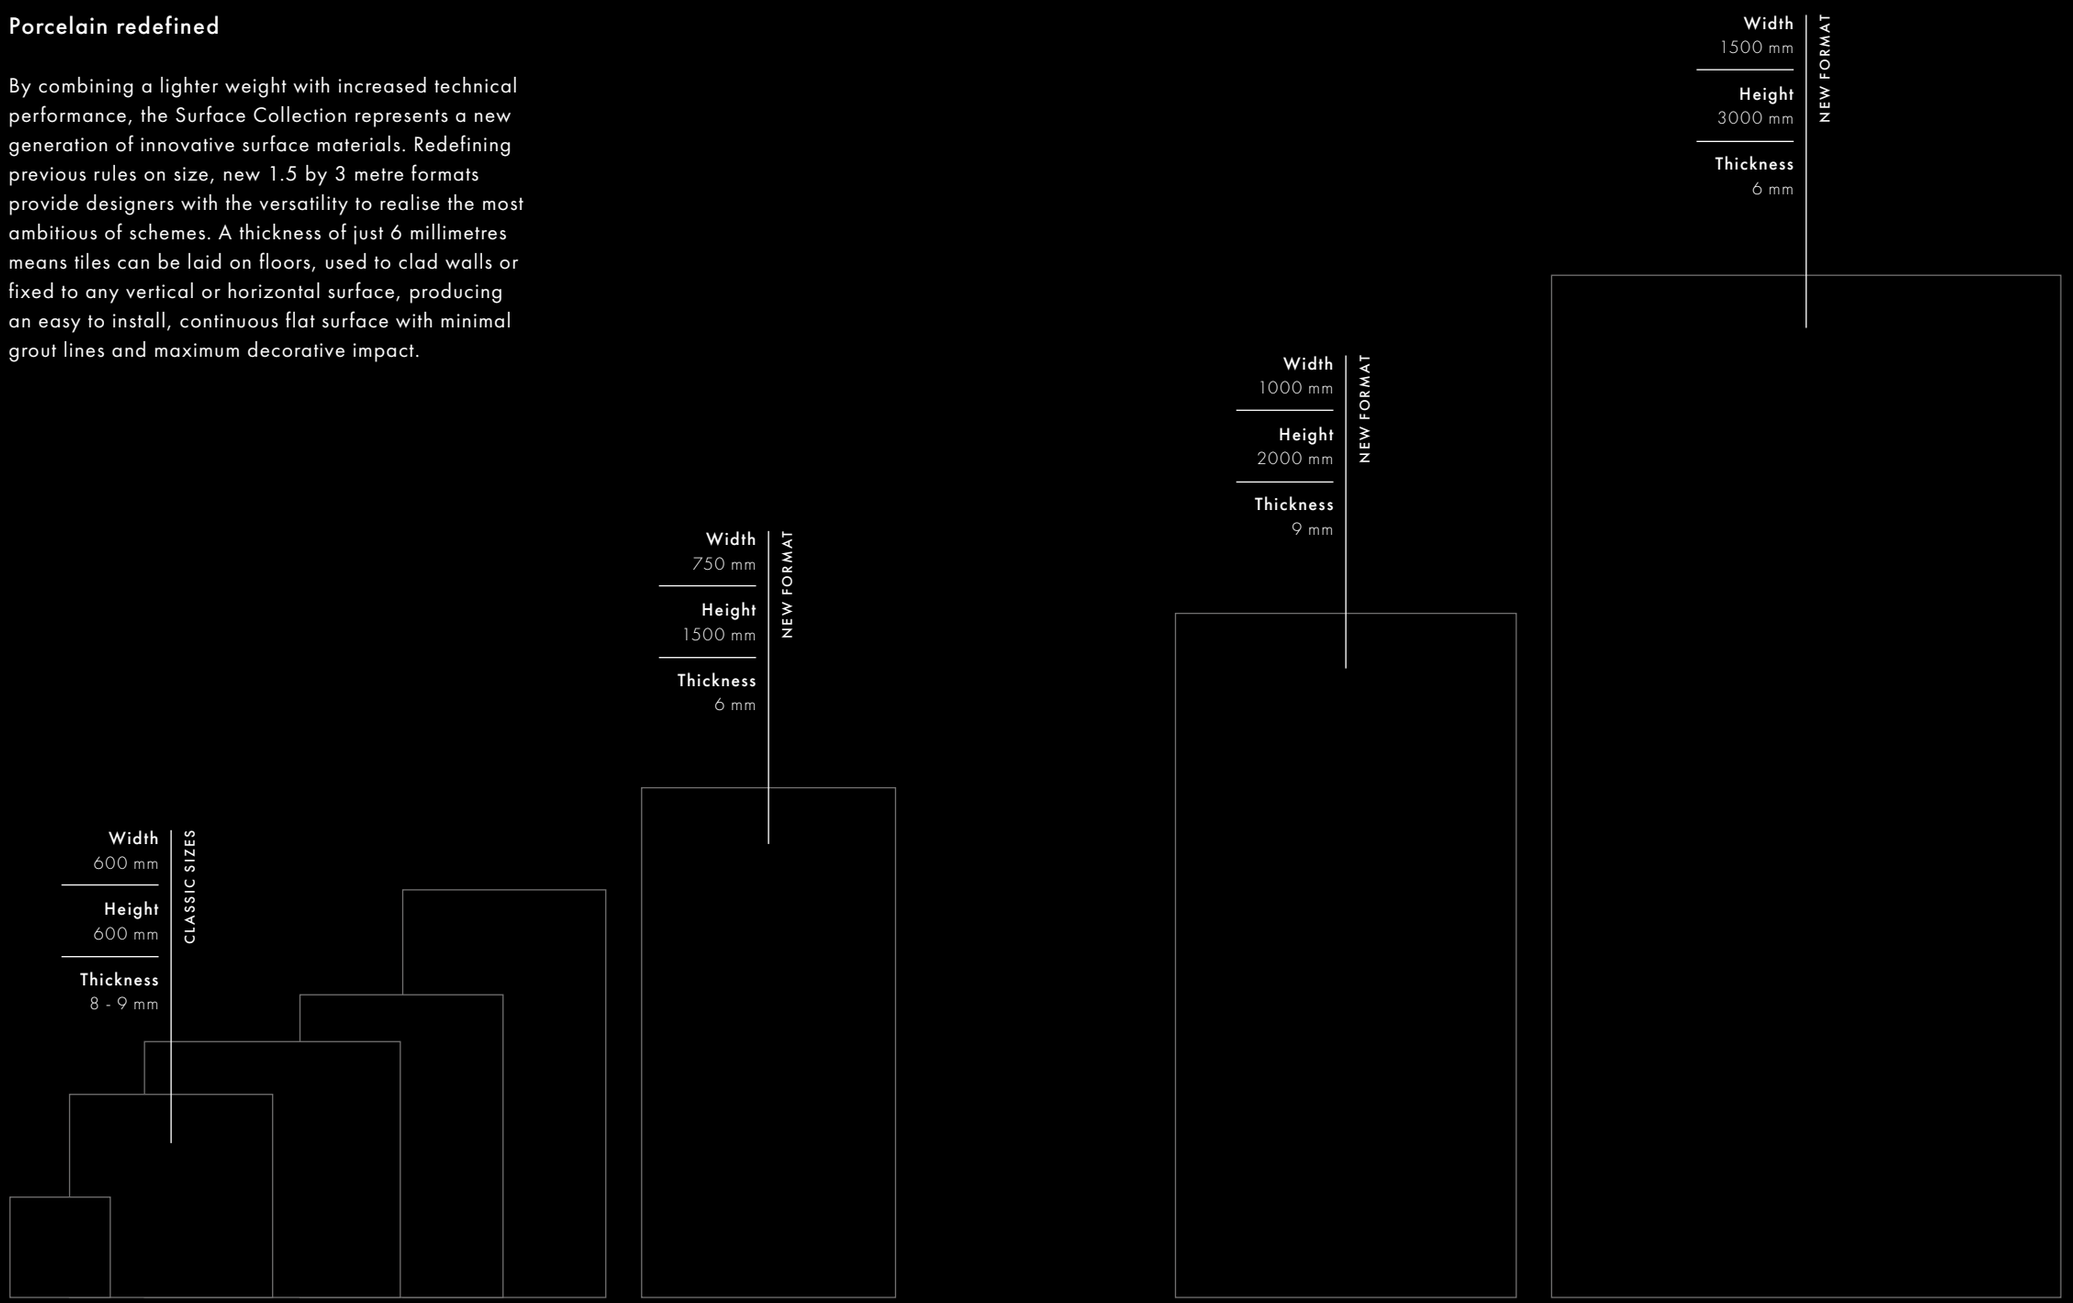

Narrazione

Representing a new generation of innovative surface materials, Italian porcelain provides designers with new opportunities, allowing them to bring their ideas to life, realising the most extraordinary and breathtaking concepts.

From architectural structures to custom-made furniture, contemporary landscapes to luxurious interiors, this versatile material is now at the heart of each concept, shaping the space around us and changing the way we think about surface covering. Offering an extensive range of ideas, colours and styles, we welcome you to the Surface Collection.

Porcelain redefined

By combining a lighter weight with increased technical performance, the Surface Collection represents a new generation of innovative surface materials. Redefining previous rules on size, new 1.5 by 3 metre formats provide designers with the versatility to realise the most ambitious of schemes. A thickness of just 6 millimetres means tiles can be laid on floors, used to clad walls or fixed to any vertical or horizontal surface, producing an easy to install, continuous flat surface with minimal grout lines and maximum decorative impact.

Uninterrupted splendor

Displaying extraordinary attention to detail, each porcelain slab provides 4.5 m^2 of surface area. The marble styles within our Surface Collection are offered with up to six graphical faces and form an authentic and uninterrupted surface with delicate veining continuing across each panel, ideal for luxurious wall cladding. Displayed above are four panels of Marmi Bianco from our Marvel Range.

Through our **TAILOR-MADE**+ solution designers can express their creativity to realise the extraordinary. Each piece is designed and produced to stand the test of time by our technical team. All items are bespoke and can be specified in a variety of sizes and styles to meet your design requirements.

From hidden doors and sliding walls, kitchen worktops with integrated basins, vanity units, stand-alone objects, desks and furnishing accessories, every project can now benefit from the stunning beauty, flexibility and superior technical performance of Italian porcelain.

SURFACE COLLECTION

Casa Dei Marmi

Embodying the elegance of timeless marble, Casa Dei Marmi provides clients with a unique collection of six decorative surfaces. Ideal for retail, public and private developments, each 1.5 x 3 metre large format slab can be utilised on floors and walls, and integrated into a multitude of surface and furniture applications.

Casa Dei Marmi encompasses the rare beauty of Italian, Persian and Irish marble, and with a choice of snowy whites, fine greys and intense greens, has the versatility for both classic and contemporary settings.

Casa Dei Marmi provides examples of the finest marbles from around the world, each displaying characteristic swirls and veins and is available in a Polished, Honed and Natural finish.

Gem Stone

Leading the trend towards more expressive stones and marbles, Gem Stone offers designers a chance to express their individuality through the use of pattern and colour. With its dramatic ring-shaped formations, Gem Stone features Agate slabs in black, gold and blue, that add a pop of colour.

Displaying an almost hypnotising charm, Gem Stone also offers six Opal shades with a translucent surface and a delicate quartz pattern. Emerald Forest presents the most dramatic colour palette, displaying a turquoise finish with black and gold veins that rise through the surface of the stone.

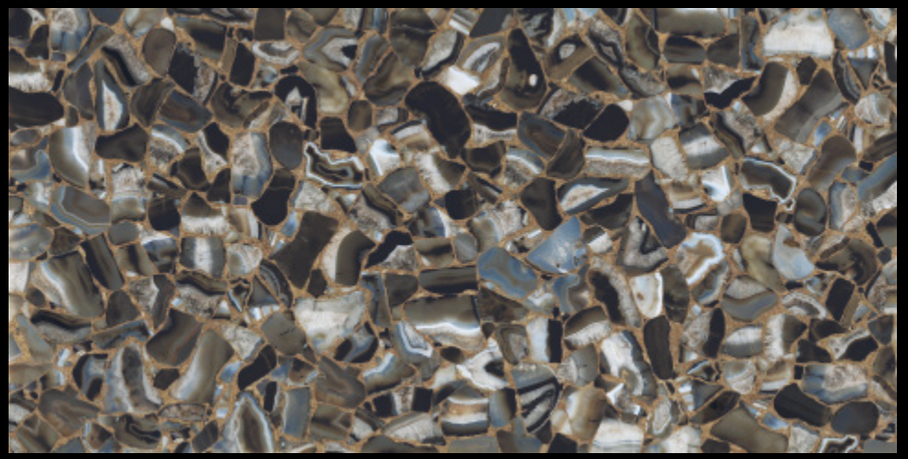

Intense colours, a highly polished surface and a wide choice of formats, mean that this unique collection of precious stones is sure to add character and create a masterpiece within any interior space.

Marvel

With a strong character and vibrant personality, Marvel takes inspiration from the World's most exquisite marbles. Our latest marble-effect range features ten striking marble styles and is available in four sizes.

Marvel is designed for both flooring and wall cladding, and can also be specified for a wide variety of applications including countertops, fireplaces and fabricated objects such as furniture and vanity units. Marvel provides a water-resistant surface that will never scratch or fade and demands none of the maintenance requirements encountered with conventional marble, and with each large format 1500 x 3000 mm slab offering 4.5 m^2 of surface area, creates minimal grout lines. Marvel is also offered with four graphical faces, forming an authentic and uninterrupted surface with warm veins continuing across each panel, ideal for luxurious wall cladding.

For a dramatic statement, Marvel also offers stunning bookmatched pairs in the Marmi Bianco and Marmo Orobico colourways. Available in 'Block A' and 'Block B' Polished marble surfaces and designed to create maximum impact these bookmatched tiles are offered in 1500 x 3000 mm format, ideal for use in hotel lobbies, stairwells and luxury bathrooms.

Royal Stone

Welcome to Royal Stone, the most noble of porcelain stoneware, featuring seven distinct marble styles. With its innovative material, clean lines, and cool aesthetics Royal Stone is tailor-made for contemporary interiors and modern commercial spaces.

With each large format 1500 x 3000 mm slab offering 4.5 m^2 of surface area and requiring fewer grout lines, Royal Stone is perfect for installations that span across both floor and wall areas, creating a magnificent, continuous surface and dramatically increasing the impact of the space. Developed using the latest compaction technology, Royal Stone is available in eleven practical sizes, and can be specified for a wide variety of applications including walls, floors, countertops, fireplaces and fabricated objects such as furniture and vanity units.

Unlike natural marble, Royal Stone provides a virtually maintenance free and water-resistant surface that will not fade or show signs of wear. This makes it ideal for high-traffic areas such as office corridors and hotel reception areas, where Royal Stone's exquisite beauty can be enjoyed as a work of art.

Calma

Alongside tone and surface texture, colour is the central design element when using concrete as a building material. Calma is a concrete-effect porcelain tile available in five dusty shades, including a pigmented charcoal. With eleven practical sizes including 1.5 x 3 metre slabs, Calma is offered in 6 mm thickness, making it a flexible and adaptable surface for a host of applicational needs.

For designers creating custom concrete interiors, Calma is completely waterproof, has anti-microbial properties and is resistant to extreme heat. This makes it the ideal material for countertops and work surfaces, but unlike standard concrete, Calma is practically maintenance free with its resistance to scratches and stains, and no requirement for sealant. Calma's authentic tones and textures make it ideal for contemporary schemes where the beauty of exposed materials is celebrated, combining a robust yet elegant surface with efficient and innovative design.
