Beauty of wood

Wood's true beauty takes a generation to emerge as its striking knots and authentic wood graining develop. Every piece has its own character, and each elegant floorboard its own unique personality. The Porcelain Tiles Wood Collection brings life and love to living spaces by celebrating these characteristics and replicating the warmth and wonder experienced with genuine wood.

Sustainable, environmentally sound and virtually maintenance free, our wood tiles are perfect for underfloor heating, high traffic and wet areas. And with many variations, grades and finishes available, from the rich patina of our dark woods, to the white washed hues of our Scandinavian inspired timber, the case for porcelain wood tiles has never looked stronger.

Lifestyle and emotion

With an unmistakable Italian style, each and every tile is the embodiment of innovation and technical development and has the power to influence lifestyle and excite emotion. And while meeting the demanding structural and aesthetic needs of our clients and providing the style to satisfy modern and traditional tastes, porcelain has become the new luxury surface covering with the strength to shape design trends.

Exploring the limits

Dedication and creativity drive us to explore the limits to what porcelain can do, and while we marvel at the grandeur of Calacatta marble and take pride in the beauty and authenticity of our wood textures, we realise this is a limit we have yet to reach. In pursuit of this goal we continue to innovate and offer products boasting the highest level of differentiated design, exceptional craftsmanship and state-of-the-art technology, all manufactured in Italy with respect to the environment.

Language of design

Our professional consultants and in-house architects think and speak the language of design. Working with the latest CAD software and enjoying a close partnership with our Italian manufacturers they have regular communication with some of the UK's most celebrated architects and designers. This allows us to offer a collection that is not only unrivalled in the tile sector, but also reflects the change in how we think about surface covering.

Knowledge from experience

Our products have been specified in over a thousand projects worldwide, including some of London's most prestigious homes, and we are proud of the reputation we have earned within the architectural design sector. Providing our clients with a knowledgeable service and a superior product ensures that each and every project, whether it be a new development, contemporary office space or luxury hotel, has the opportunity to realise its potential to enhance the lifestyle of its occupants.

Light and scale

Light and scale are the defining features of our new look London showrooms. From the immersive large format displays, carefully considered lighting and touchscreen technology, our clients experience a relaxed and unhurried environment, perfect for finding those hidden details that make Italian porcelain so captivating.

Parquet

Parquet is a contemporary collection of five wood styles, each one characterised by intricate knots and authentic graining. With delicate shades and textures, the appearance of Parquet has been thoughtfully designed for functionality and timeless elegance. The highly durable porcelain surface provides a responsible and environmentally sound flooring solution, with none of the maintenance requirements of real wood.

Three sizes allow for a number of creative laying patterns, including an oversized 300 x 2400 mm plank which is ideal for open-plan living, while a 1200 mm option can be used to recreate the splendor of a herringbone floor. Beautiful and practical, Parquet is available in Natural, Grip and Structured finishes making it suitable for both residential and high-traffic commercial projects. With its characterful aesthetic, Parquet has the beauty and technical requirements to meet the growing demand for sustainable wood flooring.

Corteccia

Corteccia displays the intricate graining, texture and knotting of genuinely aged timber and is suitable for internal and external projects. A solid wood-effect porcelain tile, Corteccia is available in two large floorboards in Natural, Grip and Structured finishes and provides excellent aesthetics combined with the superior technical performance of porcelain.

The 300 x 1200 mm floorboard has a 20 mm thickness, and with its Grip finish is ideal for outdoor living areas and low-maintenance landscaping. These large floorboards work well within open living spaces, while a Chevron option completes the extensive laying possibilities. With five rustic colours, Corteccia is ideal for flooring and wall panelling and projects where underfloor heating or a low maintenance, sustainable hardwood is required.

Natura

An exquisite recreation of natural wood, Natura displays the distinctive knotting and authentic wood graining typical of real wood floorboards. Available in five realistic colours and one sizes, Natura combines all the technical advantages of porcelain with the warmth and beauty of a real wood floor and is an ideal solution for luxury residential and commercial projects.

Woodstone

Introducing the Woodstone Collection, a harmonious fusion of natural wood aesthetics. This exclusive range offers six exquisite wood effect colours, meticulously designed to complement our stunning marble slabs. The Woodstone Collection presents a versatile selection of sizes, with options ranging from 20 x 180 cm wood planks up to oversize 280 x 120 cm formats, ensuring an elegant, seamless finish for expansive surfaces while minimizing the presence of grout lines.

Each colour within this collection has been thoughtfully curated to add a touch of sophistication to your design, offering endless possibilities to create a space that marries the warmth of wood with the opulence of marble. Discover the perfect balance between nature-inspired textures and the timeless beauty of marble with the Woodstone Collection.
