Quercia

Wood Collection

With its spectacular grain patterns and distinctive wood appearance, Quercia takes the application of wood surfacing to a new level. Drawing inspiration from fruit trees such as Apple, Peach, Apricot and Nut, and enjoying the inherent benefits of porcelain, Quercia beautifies wood and strength through a combination of highly authentic graining and delicate textures. Each of the four colours exudes genuine realism to create an inviting and highly versatile surface covering that is suitable for retail and residential developments, underfloor heating, wet rooms and fixing to walls. Available in a traditional 200 x 1200 mm floorboard and 200 x 1200 mm Chevron option, Quercia embodies the warmth and variety of mother nature.
